

June 2020

Dear Year 6 student,

Thank you for writing this letter to inform me what you're worried about and for me to answer these amazing questions.

Most of the lessons are fun, don't be worried about the teachers, they are strict in their own way. We do get taught new subjects which are Drama, Computer Science, Dance and we do Spanish as our foreign language. Two of my favourite subjects are English and Music, I'm not a big fan of Science. In Science, instead of doing it all together, it is split into three Science subjects of Physics, Chemistry and Biology. My other favourite subjects are Drama, P.E, Maths, Art and D.T. I do play an instrument and it is a Cello. I like that you play an electric guitar.

I know that you haven't asked this question, but I think you would like to hear what clubs we have. There is one where I think you would really like which is the music club. Obviously, there are more clubs which are Drama, Dance, Homework Club and P.E clubs.

You don't have to be worried on how to know what the next lesson is as we all get a timetable with what room we go to and what teachers we have at the bottom of the sheet. I was a bit worried when I first came to secondary school as in my form I didn't know anyone. Sooner than later, I did make some lovely friends. I'm sure you will do the same. Instead of letting other people to come you, you should go up to them and you will also make some lovely friends.

The cafeteria is a big place. In the cafeteria, there are two parts so we don't all get trampled on. To get your food, you will have to line up and get your food at the stations. After you have got your food, you can eat the food you have chosen to eat on the tables we have planted around the room.

About homework, we do get lots of homework, but we have a lot of time to complete it so don't worry. Some of the work we get, is hard but you can ask your guardians for help if you like. Most of the teachers, will give you a little longer to complete the homework that they have set for you if it's not completed on time. It isn't as hard as you think to make new friends and when you do they will stay with you throughout the years you are here.

Hopefully this has helped you to not worry at all about secondary school. I am glad that you have chosen this school as your next school. When you come, I will be happy to see you with as many friends as you want.

Yours sincerely,

A Year 7 student
