Responsibility • Respect • Resilience

September 2025

Dear Parent/Carer

Subject: Information about your child's upcoming Maths assessment

I'm writing to let you know that your child will be completing a short Maths assessment in the next couple of weeks. This assessment will cover the core Maths skills that students learned at the end of Key Stage 2 (Year 6). This is a helpful way for us to understand their current starting point as they begin Key Stage 3.

The assessment will take about 30-40 minutes during a normal lesson. There is no need for students to worry or prepare for it; we want this to be a relaxed way for them to show what they remember and recall.

The schedule for each class is below:

- **7A:** Friday 26th September, Period 3, Room G2
- **7E:** Monday 29th September, Period 4, Room G2
- **7C:** Tuesday 30th September, Period 2, Room G2
- **7F:** Wednesday 1st October, Period 3, Room G1
- **7D:** Thursday 2nd October, Period 3, Room G1
- **7B:** Friday 3rd October, Period 4, Room G3

Please feel free to contact me if you have any questions.

Yours sincerely

Mr Kiani
